Daily Standup Meeting

Gym Membership Management	Group Name: Delta Software
Sprint Number: 3	Date and Time: March 31st, 2026 @ 3PM

List of attendance:

- Name: Jay Attended? YES/NO
- Name: Pansilu Attended? YES/NO
- Name: Noeyal Attended? YES/NO
- Name: Sam Attended? YES/NO
- Name: Hesandu Attended? YES/NO

Project Progress:

Team Member (1): Jay

1. What did you accomplish today?
   Answer:
   Set up all standard CRUD views for the major models in the API for the management dashboard. Set up the QR Scanner with html5-qrcode library.

2. What will you do tomorrow?
   Answer:
   Set up an LLM endpoint and attempt to create some agentic functionality with it.

3. What obstacles are impeding your progress?
   Answer:
   The amount I have to do.

Team Member (2): Pansilu

1. What did you accomplish today?
   Answer:
   Changed my login and sign up pages to work with ASP.NET, with styling.

2. What will you do tomorrow?
   Answer:
   Finishing the signup page by connecting all the views, controllers, DTOs, and other needed parts to make it work. Also connecting the pages' authorization and redirect per user role.

3. What obstacles are impeding your progress?
   Answer:
   Pushing branch to remote repository. Figuring out how to converse with API.

Team Member (3): Noeyal

1. What did you accomplish today?
   Answer:
   Built draft search and filter endpoints.

2. What will you do tomorrow?
   Answer:
   Try to fix the drafts to match the system more.

3. What obstacles are impeding your progress?
   Answer:

Team Member (4): Sam

1. What did you accomplish today?
   Answer:
   Debugging the fixes. Changed the use of an API/removed the older one and making sure everything works with the new one.
2. What will you do tomorrow?
   Answer:
   Logout, view schedule dashboard, and additional changes to Trainer area.
3. What obstacles are impeding your progress?
   Answer:
   Git repository syncing.

Team Member (5): Hesandu

1. What did you accomplish today?
   Answer:
   Equipment and Session API Endpoints with search functionality

2. What will you do tomorrow?
   Answer:
   Fix equipment and session API endpoints that were created. (Build Errors)

3. What obstacles are impeding your progress?
   Answer:
   Git repository syncing.
