Project Progress:

Team Member (1): Jay

1. What did you accomplish today?
   Answer:
   Finished /booking endpoints. Fixed some missing pagination and caching. Added a few extra GET endpoints that seem logical.
2. What will you do tomorrow?
   Answer:
   Finally start up on the Management Dashboard front end and populate it with views of tables for CRUD operations.

3. What obstacles are impeding your progress?
   Answer:
   I keep wanting to go back and refine the API more and more.

Team Member (2): Pansilu

1. What did you accomplish today?
   Answer:
   Got started in VS Code. Started migrating personal project into the repo. Created branch for own features. Controllers set up in some stages and buttons set.

2. What will you do tomorrow?
   Answer:
   Begin wiring frontend to backend and making calls to API where necessary.

3. What obstacles are impeding your progress?

Answer:
Pushing branch to remote repository. Figuring out how to converse with API.

Team Member (4): Sam

1. What did you accomplish today?
   Answer:
   Wired up Trainer login API auth, and profiles.
2. What will you do tomorrow?
   Answer:
   Complete profile page setup and styling.
3. What obstacles are impeding your progress?
   Answer:
   Not clear about requirements in frontend in comparison to backend. I.E. building things that were thought to be needed but weren't.
